British Orthopaedic Association (BOA)

British Association for Surgery of the Knee (BASK)

Royal College of Surgeons (Edinburgh)

General Medical Council (GMC)

Association of Personal Injury Lawyers (APIL)

Medco

## **MEDICO-LEGAL WORK**

I have been working as an expert witness since 2013. I provide reports for both claimants and defendants as well as joint instructions for personal injury conditions from simple soft tissue and whiplash injuries to general trauma, poly trauma/fractures and specialist lower limb injuries.

I have been working in trauma and orthopaedics for over 15 years and have gained experience in trauma from minor injuries to the most seriously injured patients with multiple injuries/fractures.

My specialist area of expertise is lower limb trauma, in particular injuries of the knee.

I am registered with Medco (DME4684). I am an Expert for the Association of Professional Injury Lawyers (APIL) and listed in the Expert Witness directory.

I have experience of giving evidence as an expert witness in court.

I have a full time medicolegal secretary/PA.

## **ORTHOPAEDIC EXPERIENCE**

I have completed over 6 years of orthopaedic training on the All Wales Training Scheme. I have been a substantive consultant for over 10 years.

I have broad experience in both elective and trauma orthopaedics. I see approximately 2,000 trauma patients in the outpatient setting annually with a wide variety of orthopaedic injuries. I regularly operate on patients who have sustained orthopaedic trauma injuries.

My specialist area of interest is in lower limb surgery, especially that of the knee. I carry out both joint replacement and soft tissue knee procedures. I am a high-volume surgeon, carrying out approximately 150 knee replacement operations per annum.

## **TEACHING EXPERIENCE**

I am regularly involved in teaching and medical education.

I teach on the core training programme for General Practice trainees.

I am the assigned educational supervisor for core surgical trainees within my department.

I am a teaching faculty member at the WIMAT centre in Cardiff which involves teaching and demonstrating annually on their knee surgery cadaveric course.
