MEDICO-LEGAL WORK

I have been a Consultant Plastic Surgeon since 1996 and have a broad experience having worked in the Army, the NHS and the private sector, in the UK and in several other countries.

I have interests in burns, trauma, scars, and cosmetic/aesthetic surgery of the breast and trunk.

I have over 20 years of experience writing reports and receive about 200 instructions per year (Claimant, Defendant and Joint).

I am aware of the requirements of Part 35 and Practice Direction 35, the Protocol for the Instruction of Experts to Give Evidence in Civil Claims and the practice direction on pre-action conduct and I have obtained Part 1 of the Certificate of Medical Reporting (the Bond Solon Civil Procedure Rules Expert Witness Certificate) to evidence my understanding and compliance of the above requirements.

I am happy to take on medical negligence cases if they fall within my areas of expertise.

I am happy to consider legally aided cases on their merits.

I attend regular medico-legal CPD.

I work with all the major agencies and with local and national law firms. I am happy to accept instructions from either.

I have produced reports for criminal, civil, family and child protection cases.

I have appeared in court in both civil and criminal cases.

I am happy to produce reports for Immigration and Asylum Tribunals, including Istanbul Protocol compliance, and I am familiar with working through interpreters.

I currently have regular clinics in Bristol, London, Salisbury, Cardiff and Birmingham.

Legal referees can be provided on request.

PRESENTATIONS

I regularly present my work at Regional, National and International meetings.

These presentations have tended to follow my Practice and the pattern of the Publications above and have become more Burns/Scars orientated over the years.

EDITORIAL DUTIES

I am a reviewer for the Journal of Plastic, Reconstructive and Aesthetic Surgery (JPRAS). I review over 30 publications per year.
