EXPERIENCE

2014 – present

Managing Director and founder, Sustainable Acoustics Ltd.

Peter leads an independent consultancy practice specialising in building and architectural acoustics, environmental noise and vibration, and noise from licensed premises. He has over 20 years’ experience with specialist expertise includes separations of uses, design of schools and hospitals, and industrial facilities to avoid causing nuisance; vibration control, planning and environmental design for transportation and commercial developments are also within his expertise; with outputs as either Part 35 CPR reports, S9 Statements or technical reports. Peter has a style which focuses on getting technical points across in an understandable and clear way. Peter’s legal experience extends from his 5 years within Local Authority, as an enforcement officer, giving him an extensive understanding of the EPA1990 S79, 80 and 82; balanced with over 15 years within consultancy where he has acted as expert at nuisance litigation, planning Inquiries, licensing cases, and, including the preparation of technical evidence and rebuttle and expert testimony at Public Inquiry, Magistrates, Crown and County Courts Licensing hearings and most recently at the House of Lords Select Committee hearings.
