Clinical Trials Advisory Awards Committee: Cancer (UK)

PUBLICATIONS

Wide publication of all aspects of breast cancer management and laboratory and clinically-based breast research, endocrine surgery and endocrine cancer.

MEDICO-LEGAL EXPERIENCE

I undertake medico-legal work in the form of clinical negligence claims (standard of care, causation, condition and prognosis etc.) relating to breast cancer/breast surgery and thyroid surgery. I have 25 years experience of writing over 2000 medicolegal reports since 1992.

I write reports to the courts for both Claimants and Defendants and I currently produce approximately 30 reports per year at a 50:50 defendant/claimant ratio. I have given evidence in court approximately once a year as an expert witness. A short report usually takes 2-3 months to prepare upon receipt of all relevant documentation to the case. I am a member of The Law Society Directory of Expert Witnesses and attend several Expert Witness conferences per year including attendance at Court.
